

UNLEASH YOUR NATURAL IMMUNE POWER WITH IMMUNOCAL

In today's world, factors like environmental toxins, stress, poor diet, and aging can compromise our immune system by reducing glutathione levels.

Immunocal is an all-natural protein clinically proven to raise **glutathione levels**.* **Glutathione** enhances your **immune system**, is a key **detoxification** enzyme, provides **cellular energy** and acts as your body's **master antioxidant**.

1 Strengthening the Immune System:

By raising glutathione production, Immunocal may bolster your body's defenses.*

2 Detoxification:

Immunocal supports your body's detox pathways, leaving you feeling rejuvenated and protected from environmental toxins.*

3 Antibody Production:

Glutathione, aids in the creation of antibodies – vital for warding off potential threats.*

4 Antioxidant Defense:

Elevated glutathione levels can help neutralize harmful free radicals, reducing cell damage and signs of aging.*

5 Boosting Energy Levels:

Higher glutathione levels means better cellular energy, leading to increased stamina and focus.*

6 Supports Mental Acuity:

Glutathione is also involved in brain energy production*.

Glutathione is a substance that our body produces naturally, and it acts as a **powerful antioxidant**. Antioxidants are like the superheroes of our body, **protecting our cells from damage caused by harmful molecules called free radicals**. These free radicals are produced by our body's normal metabolic processes, but can also come from external sources like pollution, smoking, junk food and more. **Glutathione** is known as the master antioxidant because it helps to protect other antioxidants like vitamins C and E, which also play important roles in keeping our bodies healthy. It does this by recycling these other antioxidants and helping to keep them in their active form.

Human clinical trials on glutathione have been performed in the areas of infectious disease and immunology, neurology, cardiovascular disease, cancer, pulmonology, ophthalmology, gastroenterology and more.

One of the greatest myths surrounding **glutathione**, is that you can raise your **glutathione** levels by eating **glutathione**. Time and again, this has been shown to be a very inefficient way to do this. **Glutathione is MADE by your own cells and the way to achieve this is to feed your cells the specific nutrients (precursors) so that your own body can make glutathione**. This is why **Immunocal®** is defined as in major medical resource text books, a "**Glutathione Precursor**".

Supplement Facts

Serving Size: 1 pouch (10g)
Servings Per Container: 30

	Amount Per Serving	% Daily Value*
Total Calories	40	
Total Carbohydrate	0 g	0%
Total Fat	0 g	0%
Protein	9 g	18%
Calcium	60 mg	5%
Sodium	20 mg	1%

Not a significant source of calories from fat, saturated fat, cholesterol, dietary fiber, sugars, vitamin A, vitamin C and iron.

* Percent Daily Values are based on a 2,000 calorie diet. Your daily values may be higher or lower depending on your calorie needs.

How to use

Add 30 ml (1oz.) of your favorite beverage on the Immunotec shaker cup.

Shake the pouch so the powder settles to the bottom, then tear along the top to open and empty the powder into the shaker cup.

Secure the cover on the shaker cup, shake thoroughly for about 15 seconds. Add more liquid if desired and enjoy!

You can also enjoy Immunocal mixed with our Booster Reds and Greens and Booster Energy Performance.

Features:

Paraben Free

Less than 1% per pouch

No Sugar

Gluten Free

No Artificial Flavors

Antibiotic Free

Meet Glutathione:

Your Ultimate Defense Against Aging, Stress, and Toxins! Elevate Your Wellness with the Master Antioxidant and Embrace a Radiant, Resilient You!

Glutathione is a **powerful antioxidant naturally produced by our body**. It plays a vital role in protecting cells from damage caused by oxidative stress and harmful molecules known as free radicals. Glutathione supports various bodily functions, including immune system health, detoxification, and maintaining cellular integrity. It's often referred to as the "master antioxidant" because of its central role in recycling and recharging all antioxidant functioning, thereby maintaining overall well-being and defending against the effects of aging, pollution, and stress. In fact, your life depends upon glutathione. Without it, your cells would disintegrate from unrestrained oxidation, your body would have little resistance to bacteria, viruses and cancer, and your liver would cease functioning from the accumulation of toxins.

Possible clinical applications for elevated **Glutathione** levels

Neurology

- Parkinson's disease
- Alzheimer's disease
- Seizures
- Multiple sclerosis
- Autism

Infectious Disease and Immunology

- Anti-viral (AIDS, hepatitis, herpes, common cold, etc)
- Bacterial infection
- Certain autoimmune dysfunction
- Chronic fatigue syndrome
- Immunosuppression

Cardiovascular

- Prevent heart disease
- Prevent stroke
- Prevent atherosclerosis
- Prevent reperfusion injury

Cancer

- Cancer prevention
- Suppress tumor growth
- Eliminate carcinogens, mutagens
- Retard oxidative damage to DNA
- Ease side effects of chemotherapy and radiotherapy
- Prevent wasting disease

Digestive System

- Inflammatory bowel disease
- Hepatitis
- Malnutrition
- Pancreatitis
- Peptic ulcer

Pulmonary

- Break up mucus (esp. cystic fibrosis)
- Asthma
- Chronic bronchitis
- Emphysema
- Pulmonary fibrosis

Toxicology

- Detoxifies certain drug overdoses
- Detoxifies substances in cigarette smoke, auto exhaust
- Detoxifies pollutants including heavy metals, pesticides
- Prevents hearing loss from noise pollution
- Detoxifies many well-known carcinogens

Metabolic

- Enhances athletic performance
- Decreases recovery time from physical stress / injury
- Decreases cholesterol and oxidation of LDL
- Supports haemoglobin in kidney failure

Eye Diseases

- Cataracts
- Macular degeneration
- Glaucoma

Pregnancy, Lactation & Childbirth

- GSH and diabetes in pregnancy
- GSH and toxicology in pregnancy
- GSH, childbirth and the perinatal period
- GSH and lactation
